

Large Control Filter

The Large Control Filter is used for filtration of dirty control fluid that would quickly block a normal filter element. This larger filter increases the reliability of the control valve system and time between maintenance, while minimizing faulty operation.

Large Control Filter types:

Type F – Standard

Type SF – Double size filter element

Technical Data

Pressure rating: 25 bar (350 psi)

Standard materials:

Body: Epoxy coated Steel

Covers: Brass

Stem & nut: Stainless Steel 303

Seal: NBR

Disks: Polypropylene

Optional materials:

Metal parts: Stainless Steel 316

Stem: PH-17-4

Filter element: 60 mesh

Ports: 3/8" NPT

Maximum temperature: 80°C (180°F)

Weight: Type F - 2.7 Kg. (6 lbs.)
Type Super F - 5.3 Kg. (11.7 lbs.)
