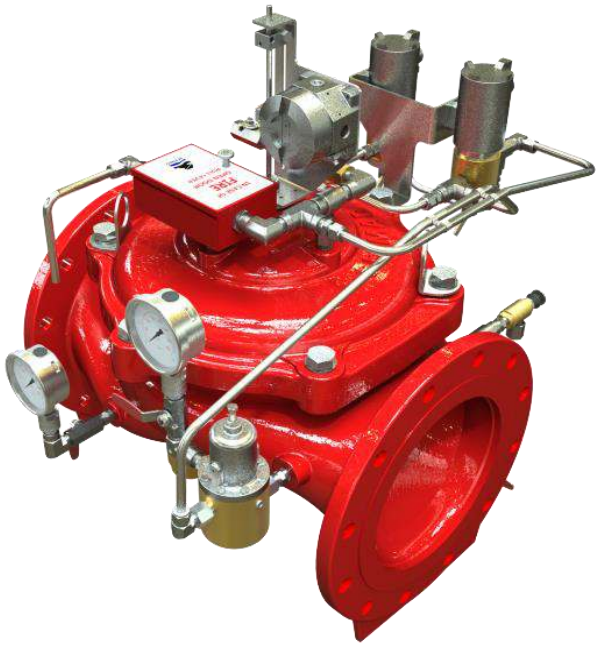
BERMAD Fire Protection

Tempa Rossa



Project Name/ End User	Tempa Rossa / ENI and TOTAL E&P
Project Description	Fire Protection systems for the Oil & Natural Gas processing center, LPG storage farm and marine terminal
Location	Tempa Rossa, Sauro valley, Italy
Application	Bermad Pressure Control with dual Electric operation Deluge valves for seawater service. Utilizing a pressure reducing pilot valve to ensure precise and stable downstream water pressure and flow including proximity limit switch to monitor the valve position at any time
Bermad Solution	Elastomeric globe type, Models FS-400Y/E-3DC Sizes: 6",12",16"
Additional Information	Bermad High capacity, low head-loss, Elastomeric globe type Deluge valve, in-line serviceable with redundancy. Nickel Al Bronze construction material with special anti corrosion coating, Monel trim and accessories
