

BERMAD Fire Protection

FPSO OYO

Project Name	FPSO OYO Offshore
Country	Nigeria
Segment	Fire Protection
Application	Combination Pressure Control Deluge
Classification	ABS & Lloyd's registered ; EExd cert.
Bermad Solution	FS400E-3DC-G-U-A5-PR-4DC-MM-96m6m Deluge spray system protecting the production modules on board FPSO

BERMAD Fire Protection

FPSO OYO

Optional Text	<p>Deluge spray system protecting the production modules using seawater, with flow control feature in order to regulate the downstream pressure of the valve according to the designed pressure.</p> <p>All deluge valves are mounted on skids and use construction materials suitable for seawater – Nickel Aluminum Bronze valves with Monel trims and solenoid valves suited for offshore and marine environment.</p> <p>Pressure / Flow control feature is achieved using an integral pressure reducing pilot valve suitable for use with seawater</p>
