

and networks. System engineers and end-users can now design and install far more optimized solutions for their system requirements.

The new line of BERMAD Air Valves include Metal Air Valves ranging from 2" to 12" (DN50 - DN300) and Plastic Air Valves from ¾" to 3" (DN20 - DN80) for a variety of Water, Sewage and Waste water pipeline and networks offering:

- Higher flow rates
- Low pressure sealing
- Minimal spray effect
- Built-in surge protection (anti-slam feature)
- Versatile design for easy installation
- Reliable structure

BERMAD continues its long tradition of meeting customer needs with efficient, convenient and cost-effective solutions bringing to market today's most advanced air valves for for Waterworks, Sewage and Wastewater systems.

A30 Automatic (Air Release) Air Valve, Plastic body

Automatic (Air Release) Air Valve, Stainless Steel body

C30 Combination Air Valve, Plastic body

C30-C Combination Air Valve, Ductile Iron body

C70 Combination Air Valve, Ductile Iron body, Down outlet

C70-SP Combination Air Valve, Ductile Iron body Mushroom outlet with Surge Protection

C70-SP Combination Air Valve, Ductile Iron body Side outlet with Surge Protection

C50-P Combination Air Valve for Sewage and Wastewater, Plastic body

C50-G Combination Air Valve for Sewage and Wastewater, Stainless Steel & Plastic body

Combination Air Valve for Sewage and Wastewater, Stainless Steel body

Combination Air Valve for Sewage and Wastewater, Ductile Iron body
