

Marina Residence

Project Name	Marina Residence
Country	Israel
Segment	Buildings & Construction
Application	Pump Control, Pressure Reducing, Pressure Relief.
Bermad Solution	700 Series Valves. Sea water Pump Control units for HVAC application – deep well type.
Optional Text	Energy conservation at On-shore commercial & residential 7 floor building. The cooling system (of the central air-conditioning) uses sea water injecting pumps to protect against excessive pressure upon activation to prevent damage from water surges upon shut-off.
