

# BERMAD Irrigation

## Cali Valley Sugar Cane Crops

Project Name	Cali Valley
Country	Colombia
Segment	Irrigation - Agriculture
Application	Pressure reducing.
Bermad Solution	700 Series 18" Pressure Reducing Valves. Proportional pressure reducer (to gravitate delivering). Static pressure relief.
Optional Text	Water collection from the Andes mountains. Gravity transport to cultivated valley. Crop: Sugar cane. Irrigation method: Flood (Furrow). This project saves money and labor of constructing intermediate reservoirs that should break the water pressure along the high steep slopes.
