

BERMAD Fire Protection

FPSO JAK YINSON

Project Name	FPSO John Agyekum Kufuor Yinson
Country	Singapore
Segment	Fire Protection Offshore
Application	Electrically Operated (Ex.d) Pressure Control Deluge Valves for Seawater and Foam Solution for FPSO JAK Yinson
Bermad Solution	Nickel Aluminium Pressure Control Deluge Valves Model 400E-3DC

BERMAD Fire Protection

FPSO JAK YINSON

Optional Text

FPSO JAK YINSON required 22 electrically operated pressure reducing deluge valves ranging in sizes 2" to 12".

These valves had to be corrosion resistant for use with seawater and foam solution as well as being resilient to the harsh conditions experienced in an offshore marine environment.

BERMAD supplied ABS, DNV and Lloyds, type approved valves of all Nickel Aluminium Bronze construction with corrosion resistant Monel / Nickel Aluminium Bronze trim and accessories, with the necessary approvals for operation in an hazardous area.
